Assignment 1: Intro

Part 1 (100 points): Describe your favorite WebGL demo.

My favorite demo is Ferrari 458 Italia (`https://threejs.org/examples/#webgl_materials_car`). The authors show a perfect car and people can change the color of its body, wheel hub and glass.

Technologies used:

- HTML
- Three.js

Bonus (33 points): If possible, try to host the project as your own Github repository and make it accessible via Github pages. Please make sure to credit the original authors. Then, link the repository here: `https://ADDLINK`
